

THE GARDEN CLUB OF PALM BEACH
Town Beautification Projects

Southern Oasis Traffic Circle: This gift to the Town of Palm Beach Centennial, dedicated in 2010, incorporates drought, salt tolerant and cold hardy plants.

Spanish Garden: This facade is located in one of nine demonstration gardens at the Four Arts.

Kaleidoscope Flower Beds: This gift to the town in 2010 is located along the Royal Poinciana Way median. These eight unique beds show the beauty and advantages of xeriscape landscaping.

TRADITION

Since its beginning in 1928, The Garden Club of Palm Beach has worked in close cooperation with the Town of Palm Beach. Our club commissioned the first Town Plan that was adopted in 1929. Now in its 87th year, the mission of the club remains focused on horticulture, the environment, conservation and civic improvement. Revenue generated from the annual House and Garden Day Tour funds projects that have been referred to as “Palm Beach Town Treasures”.

In the past ten years alone, The Garden Club of Palm Beach has:

Maintained the Demonstration Garden
at The Society of the Four Arts

Funded the design and installation of the
Southern Oasis Traffic Circle

Funded the design and installation of the
Kaleidoscope Flower Beds on Royal Poinciana Way

Contributed to the design and maintenance of the
Living Wall on Worth Avenue

Sponsored Arbor Day annually in the Town of Palm Beach

Sponsored a free lecture annually by an acclaimed speaker

Hosted a Flower Show biennially

Funded a Master’s degree candidate scholarship at
Pine Jog Environmental Education Center annually

It is fitting that The Garden Club of Palm Beach has spearheaded town beautification projects at all three entryways into Palm Beach. With revenue raised by House and Garden Day and our growing Civic Spaces Fund, the club will continue to sustain and promote the mission of its founders.

Arbor Day: Each year students from local schools plant trees to celebrate Arbor Day at this Garden Club sponsored event.

Four Arts Garden: The Garden Club has maintained the Demonstration Garden since 1938.

Living Wall: The Living Wall is a vertical garden that was part of the 2011 Worth Avenue restoration project. It contains eleven species and over ten thousand plants.

Garden Day: The Garden Club, in partnership with the Four Arts Children’s library, teaches, reads and provides a scavenger hunt for all to enjoy biennially.

Bradley Park: For Arbor Day 2009, the Garden Club donated these pink tabebuia trees, *Tabebuia heterophylla*.
